Instrument: <b>Personal Network Survey for Clinical Research</b> (network_survey_2)																								
1	study_id	Redcap ID	text, Identifier																					
2	age	Section Header: <i>Welcome to the Personal Network Survey! This Personal Network Survey is a scientific approach to understand how your social ties influence achievement of your health-related goals. We estimate that this survey will take about 15-20 minutes. The preferred platform for taking this survey is a desktop computer, laptop computer, or a tablet with external keyboard. You may also use a smartphone, though it may be more difficult for you to enter your answers. Please carefully follow the instructions, particularly at the beginning of this survey, as your answers impact the remaining questions.</i>  Your Age	text (integer, Max: 120), Identifier

14	name1	<p>Section Header: <i>Who is in your Personal Network? In order to understand your personal network and the different ways in which people are important to you and support you, we are now going to help you create a master list of people by asking you who falls into these three categories: Who do you discuss important personal matters with? Who do you often socialize with? Who provides you support for your health needs? We are only interested in people who fall into one of those three categories, and we'd like you to think only about your current network of people in your life who are age 18 or older. Please only use first names, nicknames, or initials - DO NOT USE FULL NAMES. If two people have the same first name, then add a last initial. You can enter any identifier you'd like in place of a name - all that matters is that you know the person you mean, as the "names" you enter will be used later in the survey. Who do you discuss personal matters with?</i></p> <p>Name 1</p>	text										
15	name2	Name 2	text
